

MATERIAL SAFETY DATA SHEET

- 1. Product** Stericlens Irrigation Spray
2. Category Wound care
3. Presentation 100mL & 240mL Aerosol spray

4. Description

A multidose bag-in-can spray containing 0.9% Sodium Chloride Ph.Eur

5. Hazards Identification

For external use only. Do not mix with any other fluid except as directed.

Do not use for injections. Keep out of the reach of children.

Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not puncture or burn even when empty. Do not apply direct heat.

Contains no fluorocarbons. Not flammable.

6. Ingredients

Name of Ingredient	CAS -number	% content
Sodium Chloride, USP	7647-14-5	0.9
Aqua, USP	7789-20-0	ad.100
Nitrogen, USP	7727-37-9	Propellant

7. First Aid Measures

Skin contact: N/A

Eye Contact: N/A

Inhalation: N/A

Ingestion: Not expected to occur. Get medical attention.

8. Fire Fighting Measures

Flash point: N/A

Flammability: N/A

Hazards:

Delivery system is an aerosol can containing a non-flammable, compressed gas

9. Accidental Release Measures N/A

10. Handling and Storage Handling

Protect from sunlight and do not expose to temperatures exceeding 50°C.

Do not puncture or burn even when empty.

Transport: Stericlens is classified as for transportation under Aerosols UN 1950 as 2.2 "Limited quantity" being under 1L

Acquisition Announcement: Crest Medical Ltd has Acquired Stericlens® from CD Medical Ltd as of 1st April 2023

MATERIAL SAFETY DATA SHEET

11. Disposal Considerations

Dispose of in accordance with National, Local and applicable country regulations for aerosols.

12. Physical and Chemical Properties

Form: Sterile Saline solution
Colour: Colourless
Odour: None
Melting temperature: Not available
Boiling temperature: Not available
Density (g/ml): Not available
Solubility in water: Soluble
pH: 7.4 ± 0.2
Pressure: 5 bar

13. Stability and Reactivity Chemical Stability

The product is sterile under recommended handling and storage conditions, during shelf life. Stable under normal conditions. Avoid exposing aerosol cans to excessive heat.

14. Toxicological Information: Acute toxicity

Inhalation: The content of the aerosol most is sterile saline solution without any mixture of propellant. Causes no irritation.
Ingestion: N/A

15. Ecological Information

The content consists of Nitrogen, Water and Saline and do not cause any damage to the environment in present concentrations.

BCF	NaCl	3,16
	N ₂	2,88

16. Regulatory Information

The Medical device is classified as class IIa according to MDD 93/42 EEC.
Supplied Sterile – Sterilised by radiation

Note: This Material Safety Data Sheet contains information offered as a guide to the handling and use of Stericlens Irrigation Spray, and has been prepared in good faith with information believed to be correct as of the effective dated listed.
